REPORT IN THE SENATE.

It is reported that there is a split in the party which recently carried the election of the Toledo, Ann Arbor & North Michigan Company. C. J. Lawrence & Sons, who represent a large number of first mortgage bonds, oppose the reorganization plan on the ground that bonds of unequal value are equally treated. Active stockholders are also opposed to the plan, as well as to the make-up of the present committee. They claim that the Committee does not represent ile owners of either bonds or stock, but its especially interested in the loans which they have made upon the consolidated bond.

Mr. Hill gave notice that he would move to have the Senate conferees instructed to place coal and iron on the free list.

Mr. Manderson inquired if this report was accompanied with a message from the Prisedent, Mr. Voorhees replied:

"Not that I know."

The request that the report go over was agreed to.

tion, in One Hundred and Twentieth street, and arrested him, after the unknown man had escaped.
Kelly then told him that he had been hired by a man in Grand etreet to carry the bundle to Harlem Bridge for \$1.50.
"But," said Connor, "he was going in the opposite direction at the time. We took the package to the station-house, and while examining it there Kelly remarked: 'Be careful there might be something in it to do you harm!

"There were nine dynamite cartridges and three bombs made of inch and a half gaspipe, ten inches long. There was a fuse attached."

The witness stated that the bombs were taken to the dock at the footof One Hundred and Twenty-sixth street, but all efforts to explode them failed. They were thrown into the river at a point where it was supposed they could be readily fished out. When an effort was made to recover them, however, the bombs could not be found, though the river bed was thoroughly dragged in that vicinity.

John Quinn, who claimed that he was an expert handler of dynamite, and was an employee of the Fire Department.

John Quinn, who claimed that he was an expert handler of dynamite, and was an employee of the Fire Department, took the stand at Mr. Martine's request. Quinn immediately showed that he was not an expert. He could not tell how dynamite was manufactured, nor could he tell the jury what per cent. of the explosive was nitro-glycerine. Judge Cowing at last interrupted the witness and said that the case in hand was of too serious a nature to be triffed with.
